PRECISION ERASING

Fine edged erasers for precision erasing and to create delicate textures and detailing in graphite

The largest range in the collection, precision erasing provides artists with a selection of options ideal for removing the smallest areas of graphite from paper surfaces.

All
non-toxic,
and PVC and
latex free.

RETRACTABLE ERASER

Straight edged retractable eraser for clean erasing with minimal dust. Comfortable grip for pen style precision. Compact and accessible use with pocket clip.

PENCIL ERASER

The Pencil Eraser has a comfortable style grip, with a soft brush to effortlessly sweep away dust

BOTH ARE BEST USED WITH: DERWENT GRAPHIC

SLIM ERASER

The Slim Plastic Eraser ideal for removing graphite in small areas and for soft precise erasing. Non abrasive, clean finish with low shedding.

USB RECHARGEABLE ERASER

Built-in 500mAh lithium-ion battery which is recharged by USB for convenience and long-lasting charge. Includes a USB charging lead and 20 eraser refills (10 large erasers 5mm & 10 extra fine erasers 2.4mm diameter). The extra fine eraser is perfect for fine hair line erasing for detailed artwork and technical drawing. Function button is designed to push on and off when required, allowing your hand to hold freely for maximum control. Suitable for left- and right-hand use, non-abrasive with circular motor movement.

SLIM ERASER BEST USED WITH: **DERWENT GRAPHIC**

USB RECHARGEABLE ERASER BEST USED WITH:
DERWENT GRAPHIC, PROCOLOUR AND COLOURSOFT

SPECIALIST MEDIA ERASING

Both
non-toxic,
and PVC and
latex free

Highly absorbent erasers for removing and lifting charcoal and pastel particles

Specialist tools are required when working with charcoal, pastel and colour pencil.

The Specialist Media Erasing collection from Derwent offers a selection of products, specifically designed to optimise performance when lifting these media from paper surfaces.

SPECIALIST ARTIST ERASERS

TECHNIQUE – a soft eraser that lifts charcoal and pastel particles off the paper, perfect for technical drawing and sketching

ARTIST – a hard eraser for removal of dense strokes of graphite and soft coloured pencil.

Both have strong absorption quality.
High performance, non-abrasive erasing.

KNEADABLE ERASER IN A BOX

Putty formulation lifts and absorbs graphite, charcoal and pastel particles off the paper. Pliable and kneadable consistency allows to mould to desired shape for erasing.

Key tool for artists. Includes storage box to keep clean.

BEST USED WITH: DERWENT LIGHTFAST DERWENT CHARCOAL, PASTEL

GENERAL PURPOSE ERASING

Non-toxic,
and PVC and
latex free

Practical size and easy grip for convenience when sketching and writing

An all-rounder, suitable for both artists and writers.

MULTI-USE ERASER

Plastic eraser with medium to hard firmness and non-abrasive. Robust, with a clear finish and low shedding.

BEST USED WITH: **DERWENT GRAPHIC**
