Congratulations

The Kensington Bluetooth USB Adaptor 2.0 gives you enhanced speed, security and reliability for your favorite Bluetooth devices. Please read this Instruction Guide to learn valuable information about the proper installation and use of your device. Register your new Bluetooth USB Adapter 2.0 online at www.kensington.com.

System Requirements

Hardware Requirements
- PC with a Pentium® processor or equivalent
- Available USB port (USB 2.0 or 1.1)
- CD-ROM drive

Operating System Requirements
- Windows® XP with Service Pack 1 or higher
- Mac® OSX v10.2.8 or later. Works with most Bluetooth® v1.1, v1.2, v2.0 enabled devices, excluding Bluetooth headsets. Mac software not included, visit www.apple.com for Bluetooth software driver.

Installation Instructions

Mac OS X users (10.2.8 or later):
Simply plug in the Bluetooth USB adapter to start Bluetooth.
For setup and configuration information, see Installing on Mac OS X (10.2.8 and Later).

Windows XP users:
Uninstall any existing Bluetooth software before you begin this installation.
Install the Bluetooth Software included on the CD-ROM first, and then plug in the USB adapter.
For more detailed information or instructions consult the manual on the CD-ROM.

IMPORTANT: The user must have administrator privileges to install the software driver and applications. If non-administrator user is logged on then the software will not be installed correctly.

Set up the Bluetooth Software

1. Double-click My Bluetooth Places on the desktop to begin the setup.
2. Click Next to continue.
3. Enter a unique name for this computer. Select either Laptop Computer or Desktop Computer from the dropdown menu, and then click Next.
4. Click Next to continue.
5. Click Install to begin installing the software. A status window shows the progress of the installation.
6. Click OK to continue.

NOTE: If this warning appears, plug the Bluetooth USB adapter into an available USB port.

7. After the Bluetooth USB adapter is connected, click Next to install the driver software.
8. Click Finish and then click Quit on the main CD contents screen.

Windows XP installation

1. Put the installation CD in your CD drive.
2. Click! to Install to begin. If the CD does not autoplay, select Start > Run... and type: D:autorun.exe, where 'D' is the letter of your CD drive.
3. Select I accept the terms in the license agreement, and click Next.
4. Click Next to continue.
5. Click Install to begin installing the software. A status window shows the progress of the installation.
6. Click OK to continue.
Setting Up Additional Bluetooth Devices

1. Double-click the My Bluetooth Places on the desktop to begin the setup.
2. Select Enter Bluetooth Neighborhood.
3. To see an all available devices, right-click anywhere, except on a device name, and then select Refresh from the pop-up menu.
4. Double-click the mouse or strike any key on the keyboard that you are trying to connect.

Configuration of audio Bluetooth devices

Once a Bluetooth device is paired with the Bluetooth dongle it is not automatically selected as the default audio device by the OS.

1. Select Control Panel and Sounds and Audio Devices from the Finder Menu.
2. Select the Audio tab and be sure that the Bluetooth device Bluetooth Hand-Free is selected as default device for both Sound playback and Sound recording.
3. Control the volume of the device by clicking on the Volume button on the same window.
4. Select a Bluetooth device from the list and be sure that the Bluetooth service Bluetooth Hand-Free is selected as default device for both Music playback and Music recording.
5. Click OK when done in order to save these changes.

Installing on Mac OS X (10.2.8 and Later)

After you plug in the Bluetooth USB Adapter, a Bluetooth icon appears in the upper-right corner of the Finder bar.

With the Bluetooth USB Adapter plugged in, go to System Preferences to adjust your device configuration.

NOTE: For more information on using Bluetooth with Mac OS X, visit www.support.kensington.com.

Technical Support

In North America, technical support is available in all registered uses of Kensington products.

To obtain technical support information, you can find the help file available on your computer (10.2.8 and later). Select Help (Hy) from the Finder menu.

Phone Support

There is no charge for technical support except long distance charges where applicable.

Technical Support Contact Information can be found on the back cover of this manual.

Telephone Support

There is no charge for technical support except long distance charges where applicable.

Please note the following when calling support:

- Call from a phone where you have access to your device
- Be prepared to provide the following information:
  - Name, address, and telephone number
  - The name of the Kensington product

- Make and model of your computer
- Your system software and version
- Symptoms of the problem and what led to them

Federal Communications Commission Radio Frequency Interference Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, you are encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

STANDARD DEVICES: In order to meet FCC requirements, all connections to a device using a wireless component should be made using only the cable(s) supplied with the product.

FCC Declaration of Conformity Compliance Statement for the Kensington Bluetooth USB Adapter 2.0

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: For more technical details on the supported functions and services refer to the manual included with the product.

Contacting Kensington

If you experience a problem in the use of this product, or have a question about your purchase, you can contact Kensington Technical Support as described below.

United States 1 800 535 4242
International Toll +31 53 484 9135

Technical Support is available by telephone. Please visit www.support.kensington.com for 24 hours a day on the Kensington Website at www.support.kensington.com.

NOTE: For more information on using Bluetooth with Mac OS X, visit www.support.kensington.com.

Two-Year Limited Warranty

KENNEDY COMPUTER PRODUCTS GROUP (“KENNEDY”) warrants this product against defects in material and workmanship under normal use and service for two years from the original date of purchase. KENNEDY, at its option, may replace or repair the product, or refund the purchase price, at its expense. This warranty does not cover any damage due to accident, misuse, abuse or negligence. This warranty is valid only if the product is used with the equipment in which it was intended to be used and was handled and used as prescribed in the instructions accompanying this warranty. This warranty does not cover any damage or loss that may result from the use of unauthorized accessories or the performance of unauthorized service or repair.

To obtain warranty service, please call your local dealer or KENSINGTON technical support. For a list of Authorized KENSINGTON Service Centers, call the KENSINGTON technical support phone number.

To obtain warranty service, you must produce a dated purchase receipt as evidence of the date of purchase. KENSINGTON will not be responsible for warranty service on products purchased from unauthorized resellers or for products not purchased in the United States.

To obtain warranty service, please call 1-800-535-4242 to obtain instructions for returning the product. If your product is not covered by this warranty, you will be charged for service.

CAUTIONS:

- If the equipment is used in a manner not specified by the manufacturer, the protection provided by the equipment may be impaired.
- The equipment can be used in any residential environment.
- The equipment cannot be used in a business environment.
- This equipment is intended for use in the 2.4 GHz ISM band with a maximum output power of 100 mW.
- This equipment complies with Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

The use of the symbol indicates that this product may not be treated as household waste. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. For more detailed information about recycling of this product, please contact your local office, your household waste disposal service or the point of sale where you purchased this product.
