

DERWENT

STEP-BY-STEP DEMONSTRATION

DERWENT DRAWING

Nature's palette

Coastal View (Finished drawing 5" x 8")

INTRODUCTION

This versatile pencil has a unique, creamy texture which produces a rich, velvety finish. Available in an expanded palette of soft greens, blues and greys as well as traditional sepia tones. Derwent Drawing is perfect for life and nature studies. Available in 24 natural tones.

MATERIALS USED:

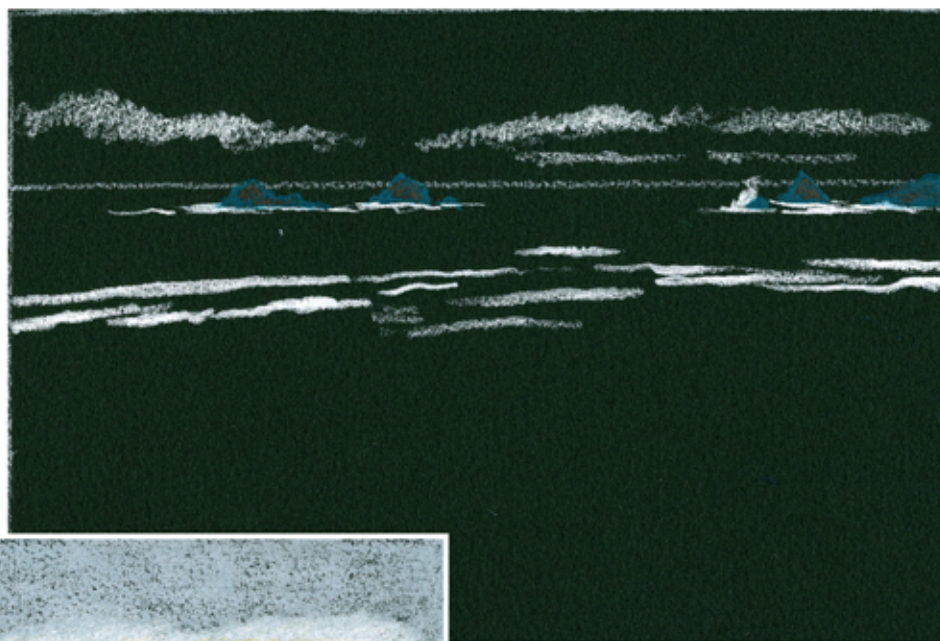

Derwent Drawing pencils used:
7200 Chinese White, 3720 Ink Blue,
6600 Chocolate, 3615 Solway Blue,
5720 Yellow Ochre, 3810 Smoke
Blue, 5090 Crag Green

Somerset Velvet black 250gms
Derwent sharpener

1 Using 7200 Chinese White, lightly position the horizon line, then using the side of the pencil and a gentle pressure, position the clouds.

Using 3720 Ink Blue place the rocks out at sea. Introduce some 6600 Chocolate to the blue.

Return to the 7200 Chinese White and pressing more firmly place the wave formations.

2 Using 3615 Solway Blue and the side of the drawing pencil, block in the sky.

Intensify the clouds with the 7200 Chinese White. Then using 3720 Ink Blue position the rocks on the beach. Using 5720 Yellow Ochre press firmly and block in the entire beach area avoiding the rocks.

Add a little 5720 Yellow Ochre to the underside of the clouds. This will give warmth to the sky area.
