

INDISPLAY

SEAL digital print media are all key components in SEAL's INDISPLAY program. This program utilizes the media detailed below as well as the Expolinc® and SEAL display systems to offer customers comprehensive, one-stop choices for easy fabrication of trade show exhibits and point-of-sale displays.

Easy Panel and Easy Panel LX

Easy Panel 310 CA (12 mil) & Easy Panel 430 CA (17 mil) are for use with solvent, eco-solvent and UV inks (Easy Panel 310 CA and 430 CA only). Easy Panel 310 LX (12.4 mil) and Easy Panel 430 LX (17.2 mil) are for use with aqueous dye and pigment inks. All of the Easy Panel products are rigid PVC media with a special inkjet coating to produce excellent print quality and strong color vibrancy. They have an opaque appearance, but are not completely light-blocking, and are also scratch and water resistant.

CityLight Superior

CityLight Superior is a 8.3 mil front printable translucent backlit film. Designed for use with solvent, eco-solvent, latex and UV-curable inks, this product is for both indoor and outdoor use in a variety of light box and signage applications.

No-Lite 165

No-Lite 165 is a matte polyester media with a special inkjet coating for solvent, eco-solvent, latex and UV printers. This 6.5 mil product contains an integrated light-blocking layer for 100% opacity. It is suitable for indoor use, as well as short-term outdoor use, and works great with a variety of banner and display applications.

No-Lite 360

No-Lite 360 is a 14 mil polyester film for use with solvent, eco-solvent, latex and UV-curable inks. This 14 mil product contains an integrated light-blocking layer for 100% opacity - making it suitable for indoor use and short-term outdoor use with a wide variety of banner and display applications. No-Lite 360 features a matte, scratch resistant inkjet coating which produces excellent image and color pop. Its stiff construction and non-curling edges make No-Lite 360 an excellent choice for hanging display systems. SEAL recommends using an overlamine on this product for added protection.

VariTex™

VariTex™ is an 8 oz 100% polyester knitted fabric. It has a moderate stretch and good wrinkle resistance, which makes it perfect for trade show display systems. Recommended for indoor use. For use with latex, uv-curable, aqueous pigment and dye sublimation water based inks.

Satin Photo Paper

Satin Photo Paper is a 9 mil, photo paper designed for use with solvent, eco-solvent and UV inks. Your graphics will print with bright colors, producing photorealistic images. Satin Photo Paper is well suited for photo prints, posters and trade show graphics. This product is recommended for indoor use and short-term outdoor use if encapsulated.

Gotham PVC Blockout

Gotham PVC Blockout is a 13 oz PVC that is 100% opaque and provides total protection from light washout. Its blockout properties also allow it to be double-side printed. Its smooth surface, bright white point and curl resistant construction enhance your messaging. Gotham PVC is also durable outdoors.

Easy Banner Heavy

Easy Banner Heavy is a 7 oz polyester fabric coated with an inkjet surface coating that supports latex, aqueous dye and pigment based inks. It offers excellent performance in hanging banner and roll up banner stands. Easy Banner Heavy offers both opacity and durability. The edges can be cut without fraying, plus there is no edge curl.

CityLight Superior LX

CityLight Superior LX is an 8.5 mil front printable translucent backlit film. Designed for use with latex and aqueous dye and pigment inks, this product is for both indoor and outdoor use in a variety of lightbox and signage applications.

No-Lite 165 LX

No-Lite 165 LX is a 6.5 mil matte polyester print media for aqueous dye and pigment inks. It contains a light-blocking layer for 100% opacity, making it a perfect choice for a variety of banner and display applications.

No-Lite 370 LX

No-Lite 370 LX is a 15 mil matte polyester media for aqueous dye and pigment inks. It contains an integrated light-blocking layer for 100% opacity - making it suitable for indoor use and short-term outdoor use with a wide variety of banner and display applications. Its stiff construction and non-curling edges make No-Lite 370 LX an excellent choice for hanging display systems.

Product	Item Number	Size	Base Material	Thickness	Weight	Ink Type	Fire Retardant
