

# ProTrim 45 & 63

Precision rotary cutting systems

The specially designed and engineered ProTrim 45 and 63 cutters meet the demands of the digital imaging and finishing markets. Trim prints and laminated materials up to 20 mil (2mm) thick in one continuous motion.

## ProTrim 45

Dimensions: 55"W x 19.5"D x 42.5"H

Weight: 78lbs.

Maximum cut: 45"

## ProTrim 63

Dimensions: 72.5"W x 19.5"D x 42.5"H

Weight: 121lbs.

Maximum cut: 63"

## Features and benefits

- Bi-directional cutting action accommodates both right and left-handed operators
- Built-in catch bin reduces clean up time
- Self-actuating clamp mechanism enables scratch-free feeding and holds materials in place while the blade is in motion
- An open-ended design enables the trimming of extra-large banners in one continuous cut
- A darkened fixed blade provides contrast for easy alignment of materials
- A stable square cutting rail guarantees a straight and accurate cut
- Tools and hardware are included for fast and easy assembly
